FEATURES & BENEFITS

- Extend the life of the flooring with increased Impact and abrasion resistance
- Reduces Surface wear which are non-dusting
- Easy to trowel into the fresh surface concrete
- Non Metallic Does not rust
- Monolithic bond with the base concrete
- Facilitates easy cleaning
- The surface density is high, increased
- Suitable for repairs of old floors and toppings for new floor
- resistance to Oil and grease penetration
- Economical

HEALTH & SAFETY

Mak Spread Hard 601 should be applied with gloves and care should be taken to see that it does not fall on skin or eyes. Splashes on to eyes have to be immediately washed with plenty of clean water and medical advice has to be taken.

PACKING

25 kg pack

SHELF LIFE

12 months if stored in cool dry shaded condition in original sealed pack

TECHNICAL DATA:

Appearance	Grey Powder
Abrasion Resistance	150% increase in abrasion resistance compared to control Moh's hardness Aggregate in Mak spread Hard 601 have
Pot Life	not less than 7

CONSUMPTION:

7 Kgs	Heavy	<2mm
5 Kgs	Medium	>2<3.5mm
3 kgs	Light	>3.5<4mm

Application rate Kg/M2 Intended traffic use Avg wear (IS1237-1980)
